As an XM radio subscriber I am quite upset about any attempt to limit the service and entertainment that they provide. Although my primary interests are entertainment, the recently provided traffic and weather information has been invaluable to me here in northeren Virginia, as well as during travel to family in western and eastern Pennsylvania. I have recently added XM to my home, and find the quality is only surpassed by the variety that XM offers! Reject the NAB's petition 04-160, and support XM radio's ability to provide the programming that I pay for and deserve!

Thank you.
